

# **N MONEY FOR NUCLEAR WEAPONS**

**BILLIONS OF BETTER IDEAS**

## **WEEK OF ACTION**

The nuclear-armed countries spend more than \$173,000 per minute on their nuclear bombs, over \$90 billion each year. Meanwhile, the companies producing these weapons of mass destruction and their investors make billions in profit. That is why, from September 16 to 22, 2024 people all around the world are coming together with one clear message: "No Money for Nuclear Weapons!"

### **What else could you do with the money spent on nuclear weapons?**

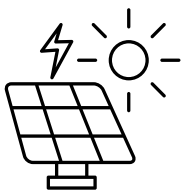

**1 second**  
of nuclear weapons spending  
**= 16,994 vaccines**

One second of nuclear weapons spending could provide UNICEF with 16,994 measles, mumps, rubella vaccines.

**1 minute**  
of nuclear weapons spending  
**= 1 million**

One minute of nuclear weapons spending costs as much as planting 1 million trees.

**1 hour**  
of nuclear weapons spending  
**= 535 solar powered homes**

One hour of nuclear weapons spending costs as much as converting 535 homes to solar power

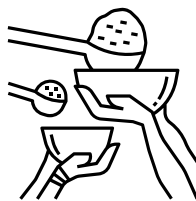

**1 day**  
of nuclear weapons spending  
**= 125 football fields**

One day of nuclear weapons spending costs as much as building 125 community football fields (both buildings and land)

**1 week**  
of nuclear weapons spending  
**= 27 million with water**

One week of nuclear weapon spending could provide 27 million people with clean water sanitation for a year.

**1 year**  
of nuclear weapons spending  
**= 13 years of food**

With one year of nuclear weapons spending you could feed the 45 million people who are in danger of famine for 13 years

Together, let's put an end to nuclear weapons, before they put an end to us.
